

Services Roadshow by

Dec 04, 2024

Authors: Blümm, M., Förstner K. U., Lindstädt B., Müller, R.

The Challenge

- Lack of open tailored training materials among different disciplines
- Demand for both short-term and long-term training formats
- Need for certification to ensure quality and recognition

What is RDMTraining4NFDI?

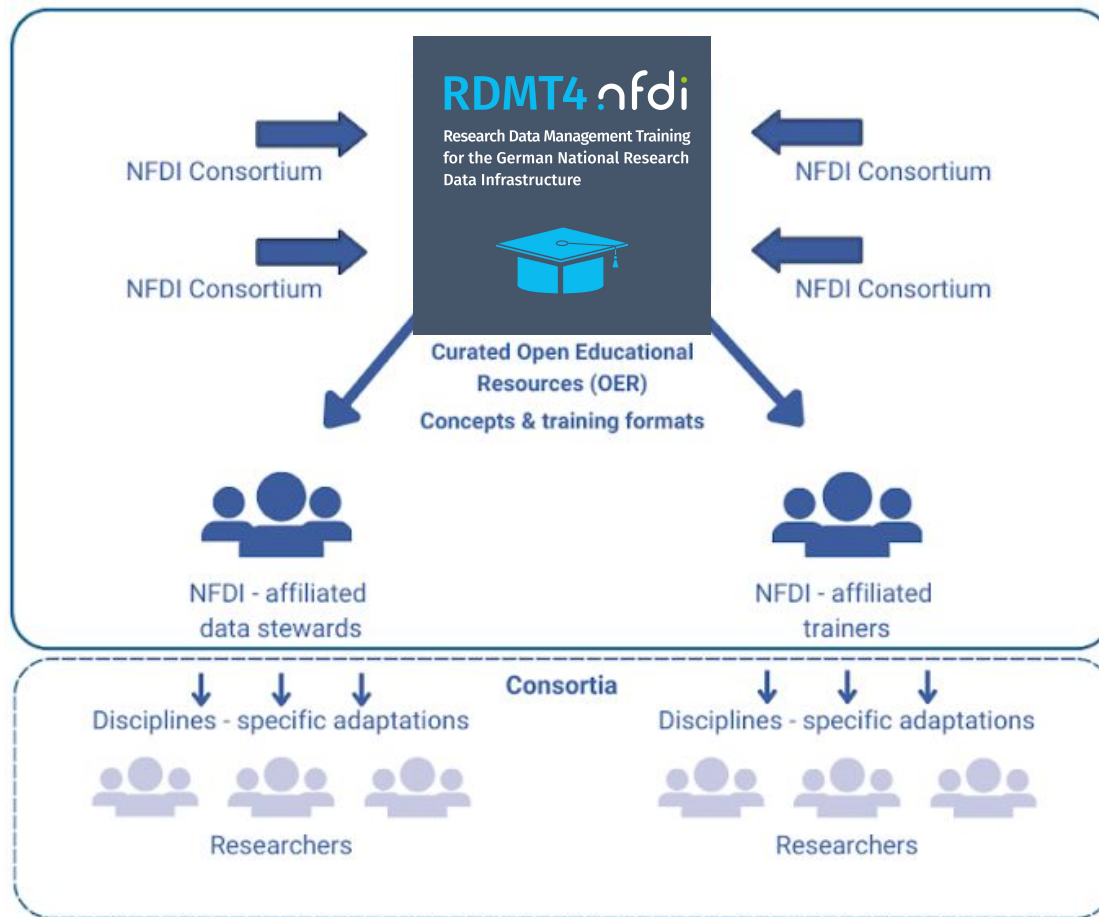

- Modular training materials, workshops, and certification for Research Data Management (RDM)
- Addressing FAIR principles, metadata, privacy-sensitive data, and research software

Target Audience: Data stewards and trainers in NFDI consortia who disseminate knowledge and training to researchers.

Importance: Standardized, high-quality RDM training promotes FAIR and Open Science practices.

What is RDMTraining4NFDI?

What the NFDI Consortia Need

Key Community Feedback

Modular Training Materials:

Customizable for disciplines and emerging topics (e.g., FAIR, Git, legal aspects)

Centralized Support:

Guidance on didactics, content structuring, and certification

Trainer Network:

Peer exchange on best practices and interdisciplinary challenges

Sustainability:

Long-term updates and maintenance of materials

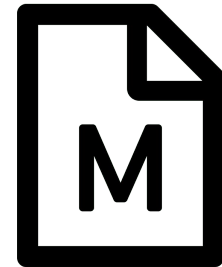

How RDMTraining4NFDI Addresses the Challenge

1. **Modular Teaching Materials:**
Discipline-specific and customizable
2. **Training Formats:** Summer Schools and Online Workshop Series
3. **Certification:** Recognizing and documenting RDM competencies
4. **Networking:** Expert community to support training dissemination

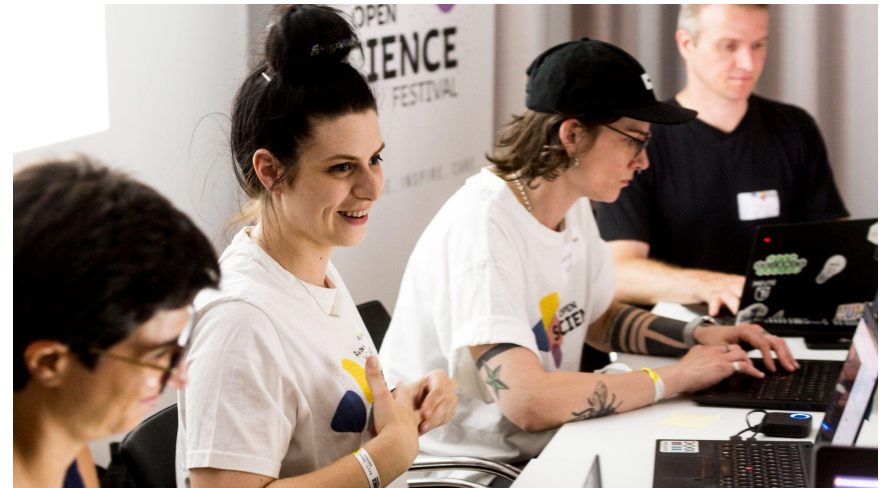

Tools:

- **LiaScript & Markdown:** Interactive, flexible, and open-source content creation
- **Zenodo:** Central repository for training materials and OERs
- **GitLab:** Collaborative development and version control

The logo for Zenodo, consisting of the word "zenodo" in a lowercase, rounded, black sans-serif font.The GitLab logo, featuring a stylized orange and red fox head icon above the word "GitLab" in a grey, sans-serif font.

Training Formats:

- **Summer Schools:** Intensive, immersive one-week sessions (Dec. 2025)
- **Workshop Series:** Flexible, modular training over four weeks (Dec. 2025)
- **Certificate Course:** Comprehensive, multi-month program (Integration Phase, 2026)

Platforms for Sharing & Accessibility:

- **DALIA:** Metadata-rich platform for discoverable OERs
- **Zenodo:** Long-term archiving with CC-BY licensing
- **Consortia Websites:** Discipline-specific access points

zenodo DALIA,

Outlook - What's Next?

- **Planned Project Start:** Mid-February to March 2024
- **Initial Focus:**
 - Establishing core team and workflows
 - Developing modular training materials and didactic concepts
 - Setting up platforms (e.g., Zenodo, DALIA, GitLab)
 - Focusing on networking to build strong community connections

Call to Action

Planned Activities

Community workshops to:

- Exchange ideas with NFDI consortia, data competence centers, and EduTrain APs
- Analyze RDM training needs and priorities
- Identify synergies for effective collaboration

We will get in touch with you!

Call to Action

Have Ideas or Suggestions?

We welcome your input on:

- Specific training needs or challenges
- Ideas for collaboration and synergy
- Feedback on proposed training formats

How to contact us:

Email: muellerr@zbmed.de, foerstner@zbmed.de

Or join the Mailing List:

rdmtraining4nfdi@lists.nfdi.de (not official yet)

Involved consortia in the initialization phase

Instructions:

Write down the letters in front of each correct answer! In the end, these letters will form a solution phrase.

Which NFDI section submitted and supports RDMTraining4NFDI?

- YS)** EduTrain
- GU)** EduGain
- CO)** OpenEdu

Thank you!
